December 10, 2019 - GuideGuide 5.0.20 | GuideGuide 5.0.20 Guides are a pain. GuideGuide is a Photoshop and Illustrator panel that makes it easy to work with guides...and grid points. I love them. I often use guides in my work. I often use grid points. But I hate them. GGuide is the solution to the problem. I started using GuideGuide in September 2019 and it was a lifesaver for me once I got the job done. I don't know how I did it. I don't know why I didn't do this before. I don't know why I was stuck for so long. I don't know what stopped me. But I know that I'm fine. I'm not going back to using guides.
