"Wow, is it good! ... It is simply ... beautiful! My favorite! My favorite! My favorite!" "I needed a break from the combat-related exploration games, which I spend most of the time playing ... and suddenly here I am, stuck in a different category of game ... and it is very good! The atmosphere is fantastic! ... The audio track is marvelous, giving the game a mysterious atmosphere. The narration enhances the whole scenario. And yes, it is as good as the action itself. I can recommend it to everyone who enjoys audio games." "Something incredible is happening! The music ... is ... amazing! ... How did I not know about this game before!?!? ... I just preordered it!" In the future, most of the action revolves around the large orbital stations circling the Earth. Humans are protected from the endless void of space by the only things they have never lost - their machines. In a broken society, starships are both a necessity and a luxury. You are a pilot, the only link between the future and the remnants of the past. Your ship is an inertial drift - the only vehicle able to travel through the new wormhole. A powerful weapon and a powerful tool of the law, the inertial drift is a weapon of mass destruction. Your mission? Survive and train to challenge the top champions. As you build up your inertial drift, the world will forever be changed as the void becomes your foe. Features: * Open world environment: Infinite and explorable. The mechanics of the drift is designed to seamlessly and destructively tear the world apart from orbit to lower. * Collectable Parts & Weapons: From simple to advanced systems, the world comes alive with interactive items that you can find from the ground and reclaim from the debris in the sky. * A wide variety of different vehicles. The 1000 is the universal spaceframe. Hold onto them for dear life! * Thematic soundtrack that blends genres of future urban music with traditional action-packed arrangements. * Unique track design: Designed with the gravity of your drift in mind, the track design provides a unique threat on every test. * New Drift Balls: The Drift Ball allows you to upgrade your inertial drift. As you gain experience you can upgrade your inertial drift into more powerful versions of itself. * New Game Modes: Defend the world! You can try to master the chaotic world you are racing in with the new Survival Mode. * You can play it alone or invite friends via cross-platform multiplayer. ===== Technical Specifications ===== Game File Size: ~8GB System Requirements: -CPU: 2-core -RAM: 4GB -VGA Card: 256MB -Operating System: Windows 7, 8, 8.1 and 10 ===== Game Developers: - The Windows version of the game comes with development support and updates to ensure a lifetime of playability - The game is completely DRM-free, so you are able to share the game without any external tool, including via USB/Bluetooth! ===== This is a demo of the official soundtrack release. The player controls the ball on the field. If the ball hits the house or a post, it will bounce off. If the ball reaches the end of the field, it will hit the peg with the flag. If the ball moves outside the opponent's house, the game is lost. Source: (Russian) (German) . На дороге игра подается парой какие-то фигурки и ковриком. Реализация возможно две: игрок двигает фигурку в поле и игра парой выходит из движения и уже движется направо или налево и по открытой дороге непердельно массивный пол и столбы с фигурками считает парой и стопается в стороне. Когда один фигурок достигает столба, другой фигурок получает его огонь и уже открывается 🔥

What's new:

Chapter 628: Searching for the Melodious Lord Haizan On the way to go to the club after arriving at the hotel, I handed Bunne's pendant to Taeko, who was lying on the bed. And as she looked at me with her teary eyes, I gave her a rather proud smile. No doubt, this was thanks to this. The pendant I managed to craft in Laori's shop, which I dropped into the sea along with the Witch's Flower. It wasn't much. It wasn't that big, and it didn't even have a place to put her claw. But in the grand scheme of things, this pendant was to be given to her, so she could remember the legend about Laori. The girl couldn't even recognise the former mane-woman whom she felt so sorry for, could she? But in return, Taeko will definitely give her a big surprise when she receives it. We shall honour each other until the end. That's truly the best way to go about things, isn't it? A knife that had been submerged in Bunne's sleeve suddenly turned into smoke, as though it had been transformed into an owl's claw. "O-Oh, thank you, Keiichi." As Taeko took the dagger back in her sleeve, she started crying. I sighed. It was the day after we arrived at the hotel, and she went running off because of that. My original plan for her was probably to cut herself along with Keiki and Uneaten Moolah, as I decided to take her along on the search for the Melodious Lord Haizan at the club. It was her favourite club, and I intended to take her there so that she could at least see how the other girls were doing and talk to them. But because she went after Keiki to keep the secret about the club, I ended up not going with her. There was no reason to lie about it. Keiichi could probably understand. If I had explained to him how Taeko felt about searching for the Melodious Lord Haizan, he might have understood and gone with her as well. To be honest, I didn't really like him. Keiko liked him, and I felt like he was up to something. Keiki liked him too, and I would take measures if anything went wrong.
